0985 449 5444
San Isidro, Rodriguez, Rizal, Philippines

PROFILE

6+ years progressing from hands-on IT support into full-stack software engineering. Enterprise banking systems, public-facing booking platforms, and independent web apps — built, shipped, and maintained end-to-end.

CORE SKILLS

- React, Next.js, Ionic
- NestJS, JavaScript, TypeScript
- REST API design & integration
- COBOL, Natural, Adabas
- AI-Assisted Development
- Mobile App Development
- Network & Hardware Troubleshooting
- Technical Documentation

EDUCATION

BS Computer Engineering
Colegio De Montalban, 2018
NC II, Computer System Servicing
TESDA Region 4-A, 2018

ELIGIBILITY

Career Service Professional
Rating: 82.15% | 2023

RECOGNITIONS

- Employee of the Month — McDonald's
- Crew of the Year 2015 — McDo Philippines
- All-Star Market Wide Champion 2015

PROFESSIONAL EXPERIENCE

Full Stack Developer

iPick Booking Services / TNC | Sep 2025 — Present

- Built and shipped web and mobile applications from the ground up using React, Next.js, NestJS, TypeScript, and Ionic.
- Drove development of the iPickOfficial.com booking platform, from architecture through deployment.
- Co-developed iKomyut.com, a public transport platform serving real commuters.
- Designed and independently built FreeTapTools.com as a standalone web application.
- Engineered RESTful APIs and integrated frontend/backend services end-to-end.
- Owned deployment, maintenance, and continuous system enhancement across the full SDLC.

Associate Software Engineer

Accenture Inc. | Oct 2023 — Jul 2025

- Developed and maintained mission-critical backend systems for a major American banking client using COBOL, Natural, and Adabas.
- Translated complex business requirements into robust technical solutions and design documentation.
- Delivered system enhancements and production fixes under strict SDLC standards.
- Executed unit and integration testing, resolving defects to keep production systems stable.
- Collaborated across business analysts, QA, and development teams to push enhancements live.

Property Custodian

J.C. Rodriguez Construction Corp. | May 2018 — Mar 2023

- Built inventory monitoring and accountability systems for company IT and physical assets.
- Assembled, configured, and deployed desktop workstations across the organization.
- Installed and maintained LAN infrastructure and network connections company-wide.
- Delivered hands-on technical support for hardware, software, and network issues.

Service Crew / Crew Trainer

McDonald's (Golden Arches Dev. Corp.), Montalban | May 2015 — May 2018

- Trained incoming crew members on service standards and store operations.
- Recognized as Employee of the Month and Crew of the Year (2015) for consistent performance.

LEARNING & DEVELOPMENT

- Generative AI for Software Development: Best Practices in AI-Assisted Coding — Accenture, 2025 (72 hrs.) (In House Certification)
- Construction Occupation Safety and Health Training — J.C. Rodriguez Construction Corp., 2018 (40 hrs.)
- On-the-Job Training, Career Executive Service Board — Colegio De Montalban, 2017 (300 hrs.)
